

MGF Ltd. recognise that the management of energy use is key to its business development and performance and is therefore an integral part of its business strategy policy. The Organisation provides effective energy management throughout its activities and has established this Energy Policy to be consistent with the purpose and context of our Organisation. It provides a framework for the setting and review of energy objectives and targets in addition to our commitment towards the following.

We shall:

- Provide provision and availability of information and necessary resources to review and ensure achievement of energy objectives and targets.
- Ensure that procurement activities include consideration for the supply of energy efficient products and services.
- Conform to applicable legislative, regulatory and compliance obligations.
- Where design activities form part of our management process, consider energy performance improvement at all stages.
- Continually improve our Energy Management System and to enhance energy performance.

This policy is communicated to all employees, suppliers, subcontractors, and other interested parties and is reviewed regularly for effectiveness and relevance to the business.
